Enhance productivity with AI-driven insights

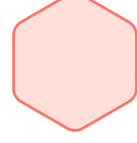

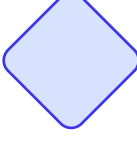

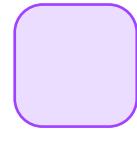

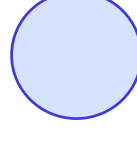

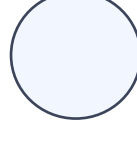

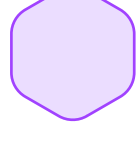

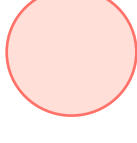

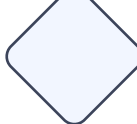

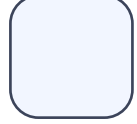

Priority Cloud ERP empowers businesses with AI-driven personalization and customization, as well as an Automation Hub that streamlines tedious and repetitive manual tasks. This enables users to focus on areas where human expertise is essential. The system's AI-driven personalization and customization continuously learns and provides users recommendations based on their preferences, enhancing overall efficiency and productivity.

Carry your business with you with mobile ERP

Priority's mobile ERP applications provide access to the ERP functionalities and database from any mobile device or tablet, meaning real-time access, updates, and visibility of your business operations anywhere, and at any time. An always-on mobile solution designed to meet the needs of today's always-moving workforce, customers can either use a wide selection of ready-to-use mobile apps tailored for specific professionals or customize their own mobile apps based on their unique workflows and needs, in minutes and with no need for coding.

Priority offers specialized solutions for numerous industries including:

-  Agriculture
-  Electronics
-  Healthcare
-  Nonprofits
-  Professional services
-  Software & technology
-  Construction
-  Financial services
